## Workshop for PhD Students and Young Scientist in Allergology

to discuss your own work with others,  
exchange experiences, make contacts

27<sup>th</sup> – 29<sup>th</sup> November 2024  
Fraueninsel im Chiemsee

## Allergie im Focus

WORKSHOP FOR PHD STUDENTS AND YOUNG SCIENTIST  
IN ALLERGOLOGY

## Allergy on the Isle

27<sup>th</sup> – 29<sup>th</sup> November 2024 | Fraueninsel im Chiemsee

### Discuss projects together, exchange experiences

The „Allergy on the Isle“ workshop is a very special way of promoting young scientists.

In the time-honored atmosphere of the Frauenwörth Abbey on a small island in Lake Chiemsee, established scientists from various areas of allergy research will discuss participant's projects in small groups and pass on their experiences. With the support of the DGAKI, this workshop is now being organized by the Immunology Section and the Junior Members for the fifth. The meeting provides an opportunity to have constructive discussions about your own research data and concepts, to develop new perspectives for your work and professional career, to exchange views on the many facets of allergy research and (not least) to make new contacts.

### Preliminary Program

Individual arrival

(boat schedule: [chiemsee-schiffahrt.de](http://chiemsee-schiffahrt.de))

### Wednesday, November 27, 2024

18.00 Dinner

19.30 Get-together

### Thursday, November 28, 2024

08.00 Breakfast

09.50 Grouping and organizational matters

09.00 Group discussions, round I  
(incl. coffee break)

12.00 Lunch

13.30 Lecture Prof. Dr. Regina Treudler

14.00 Group discussions, round I  
(incl. coffee break)

18.00 Dinner

19.30 Social evening

### Friday, November 29, 2024

08.00 Breakfast

09.00 Lecture PD Dr. Sebastian Reuter

09.30 Mini-Method-Workshop  
(dos and don'ts with BAT)

10.00 Lecture Prof. Dr. Anne Dudeck

11.00 Feedback and Farewell

12.00 Lunch

Individual departure
